

## KL Full Moon Hash House Harriers

### Run Report

Run: 297

Date: 17th July 2016

Hare: Ben Ler

Site: Denai Alam

Just before 5.30 pm our illustrious GM called the pack to order and waited a few minutes for the stragglers to assemble. We eagerly awaited his instructions - but he had none and so we ambled off with no idea what to expect!

The trail took the 'normal' route into the plantation where relatively quickly we got to the first check. This was broken forwards, deeper into the plantation and so when we came to check 2 it began to look like a clockwise run. At this point some assumed it would be and so followed the 'red brick road' anticipating they would find the paper later. Wrong! It was a back check that took us into the secondary jungle, over a ridge and down towards a lake where check 3 was located.

This was also broken backwards and the paper continued through more (and more!) secondary and around the back of the new Cahaya SPK development. Here we did a U-turn in the contractor's camp and struggled back through the secondary until we had a 'run in' back through the plantation.

Back at the run site there were snacks and of course Ramli's beer wagon.

However, the god Zeus was angry and so the sky darkened, thunder rumbled around us and light rain began to fall.

How many Singaporeans does it take to erect a canopy? Only one, but with 5 or 6 helpers manoeuvring cars, hanging on to poles, etc. Almost as complicated was Wild Bore's 10 minute erection – of a LED light contraption!

When the circle started at about 7.50 pm there was no moon to be seen (other than the street lights). Firstly three virgins were introduced, 2 Chinese and Crutch (?) Thumper, who proudly informed us that she was from Portland, Oregon. But, by now the storm was intensifying with howling wind and lashing rain. Consequently the circle was abandoned, which was fortunate because my paper was saturated and it was quite impossible to take any more notes.

The pack adjourned to the ON ON and a respectable 6 tables enjoyed subsidized dinner and free drinks from the Hare. A proper round of down downs was administered and all had a great time.

Thank you Hares for your efforts and contributions. ON ON
