

KL Full Moon Hash House Harriers

Run Report

Run: 298

Date: 14th Aug 2016

Hare: Rob & Liz Mulliss

Site: Saujana Utama

At 5.30 pm our rather befuddled GM called the pack to order and we strolled back down the road on which we had come and right into the flat section of the Elmina Estate. The short cutters quickly concluded it would be a clockwise run and planned accordingly.

Those who had broken into a blistering trot soon arrived at the first check that was quickly broken forwards, deeper into the estate. The next check was similar, but broken to the left and from there the trail led us, via a huge circular, to Check 3. This was broken close to the estate 'kampong' and from here we headed towards the pumping station and Check 4. Surprise! We didn't go to the pumping station but to the right and we headed up in the hills (alive with the sound of music?). The paper then led over a ridge and down to Check 5, which was close to the power lines. It was broken back into the hills and over another ridge to give us a fine view of the devastated plantation – all in the name of progress! The last check was further along the top of this ridge and the hares thoughtfully brought us 'home' down an impossible limestone scree that wouldn't look out of place on Everest.

The run was some 6 km long and almost all of the pack of 50+ returned within 75 minutes. Back at the run site we were again treated to snacks and of course Ramli's beer.

Our GM kicked off the circle at about 7.45 pm and reminded us of the Pub Crawl Run (No. 300 on 16th Oct) in 2 weeks' time and so, still befuddled, he was down-downed to clear his head. There was also a reminder of the Belgian King's Day Run on 13th November.

There followed numerous charges (some on ice) including:

- The hares for setting a good run and being last minute volunteers.
- The befuddled GM for thinking he was on the SHOT hash and also for arranging a nice, sunny evening.
- Three Full Moon virgins, one young lady being 'under age' and another on her first ever Hash run.
- Roger 'the drone' for buzzing Malindo and Firefly aircraft
- Russel's brother for something or other and Don Cheng for being 'low tec.'
- Roger and Walking Tall for being front runners – thanks to the circular.

- Iris for falling down a mountain and receiving CPR from Passcuran and Gordon. She was later anointed with the Hash name “Arse Over Tit”.
- Passcuran for going to the wrong run site (Denai Alam).
- Aileen for posting a video on Facebook of her doing press-ups to improve her bust..
- Win Chew for leaving (with the appropriate song).
- Numerous guests including Crusty Nuts, Opera, Gordon, Nigel and others.

John Lavelle then instructed Rajesh, our Air Asia representative, that the run was free but he had to pay RM 10 to park his car close to the beer wagon (RM 5 further away), RM 10 for each beer he consumed, RM 5 to sit down at the circle, etc., etc.

The charges then continued with:

- Rajesh for ignoring his wife’s plight when she fell off the mountain and describing her as a tough ‘mountain woman’.
- Rajesh for trying to get PH3’s GM hooked up with his friend at the Backyard last night.

The circle closed with various announcements including;

- Next month’s run will be set by the Klang H3 at Cahaya SPK
- There are competitive MAS flights available for the next SHOT Hash in Hyderabad, India in December.
- Some 900 people have already registered for the Mother Hash’s 80th anniversary and the closing date for the early bird price of RM 350 has been extended to the end of 2016. The Full Moon Hash will host the Ballbreaker run.

With that, the hare issued directions to the on-on at the Heng Hin restaurant in Raman Putra

Thanks to the Hares for another fantastic Full Moon event.
